Key: C# 4/4 capo 1

Intro: C F C G C

1.           <F>                           <G>  
The sun in my eyes, cold wind in my hair  
          C                               F  
With a sign that just said "Please"  
          Dm                            F  
Watching couples in sports cars go racing by  
          C                               G  
And families in S.U.V.s

Chorus           C                           F  
I was a hitchhiker on love's highway  
          C                               G  
Didn't know which way to go  
          C                               F F/e Dm  
Until you cruised by in your four-wheel-drive  
          G                               C  
Found me standing by the road

T/A C F C G C

2. You saw me and stopped, we talked for a while  
I jumped in and said, "Let's go"  
Pedal to the metal, no looking back  
Doing 90 down a one-way road

Chorus

Break (chorus)

Bridge F                           G           C                           F           C G <G#>  
Eyes on each other blind to the signs           Seems like I never learn  
          Am                           <G>F           <Em>           Dm           D           G  
No flashing lights, no siren song           Not long till we crashed and burned

Chorus           Now I'm a hitchhiker on love's highway  
Didn't know how far we'd go  
When you cruised by in your four-wheel-drive  
Found me standing by the road

coda           C                           F F/e Dm  
Oh you cruised by in your four-wheel-drive  
          G                               F Em Dm G C F C G C  
Left me standing by the road
